To All Plainville Board of Education Employees:

State and Federal regulations require that all employees be notified on an annual basis of public school buildings containing asbestos. We have asbestos management plans for each building and continue to inspect and monitor asbestos as required by regulations for asbestos in schools. These plans meet the State and Federal regulations concerning asbestos and are on file with the Principal's office in each school available for your review during normal office hours.

The areas of the schools containing asbestos have been labeled accordingly and all appropriate school personnel have received asbestos awareness training.

If you have any questions regarding the management plans, you may contact Steve Busel at 860-793-3233.

Sincerely,

A handwritten signature in blue ink that reads 'Steven K. LePage'. The signature is written in a cursive style.

Steven K. LePage
